

HARD GOODS TESTING SERVICES

MTS offers a wide range of testing, certification, and verification services customized to meet your specific needs on hard goods. Our Hardlines division assist clients to ensure their products comply with all regulatory and industrial requirements while minimizing costs and providing ongoing support for quality, safety, and performance assurance. Our Hardline services include, but are not limited to, design evaluation, risk analysis, product safety testing, defect evaluations, and consultation. A partnership with MTS promotes quality, decreases customer complaints, and can greatly reduce the chances of a product recall from a variety of different governmental agencies.

MTS offers hard goods testing services for an extensive array of products including:
